

Broadening Participation in Graduate Education

James C. Wimbush
Dean

December 3, 2009

INDIANA UNIVERSITY
THE UNIVERSITY GRADUATE SCHOOL

Broadening Participation at Indiana University

- **Summer Research Opportunities Program (SROP)**
Sponsored by the Committee on Institutional Cooperation (CIC)
- **The Adam W. Herbert STEM Initiative**
In collaboration with eleven Historically Black Colleges and Universities
- **Getting You INTO IU**
Funded by AGEP and the IU President's Diversity Initiative

Summer Research Opportunities Program (SROP)

- **24th year of participation by CIC institutions to increase the number of underrepresented students who pursue a Ph.D. degree or research career.**
- **8-10 week full-time summer research experience for U.S. citizens/permanent residents from U.S. institutions.**
- **All expenses paid plus stipend for participants.**
- **Campus-based enrichment workshops and opportunities, and 40 hours of research each week.**
- **Annual academic research conference for all participants hosted by a CIC institution.**

The Adam W. Herbert STEM Initiative

- **Partnership between Indiana University and eleven HBCU's.**
- **Program designed to create a pool of underrepresented students for graduate study in STEM who upon degree completion will return to HBCU's or IU as faculty.**
- **Components of the program:**
 - **Summer Scholars Institute**
 - **Multi-year funding for doctoral and master's students**
 - **Collaborative research between IU and HBCU faculty**
 - **Visiting Scholars Program**

GETTING You INTO IU

- **Two-day program designed to create a pool of underrepresented students for Ph.D. programs at Indiana University in Bloomington and Indianapolis.**
- **Prospective students nominated by faculty from U.S. institutions, 25 selected for participation by IU departments.**
- **Customized visit for each participant to provide interaction with future peers, faculty, and the broader campus community.**
